1-1. しわ関連英語原著論文 (32 報)

1. Takema Y., Sakaino Y., **Imokawa G.**: Age-related changes in the elastic properties and thickness of human facial skin. *Brit. J. Dermatol.* 131: 641-648, 1994.
2. Imayama S., Nakamura K., Takeuchi M., Hori Y., Takema Y., Sakaino Y., **Imokawa G.**: Ultraviolet-B irradiation deforms the configuration of elastic fibers during the induction of actinic elastosis in rats. *J. Dermatol. Sci.* 7: 32-38, 1994.
3. **Imokawa G.**, Takema Y., Yorimoto Y., Tsukahara K., Kawai M., Imayama S.: Degree of ultraviolet-induced tortuosity of elastic fibers in rat skin is age-dependent. *J. Invest. Dermatol.* 105: 254-258, 1995.
4. Takema Y., Fujimura T., Ohsu H., **Imokawa G.**: Unusual wrinkle formation after temporary skin fixation followed by UVB irradiation in hairless mouse skin. *Experimental Dermatology* 5: 145-149, 1996.
5. Takema Y., **Imokawa G.**: The effects of UV-A and UV-B irradiation on the viscoelastic properties of hairless mouse skin in vivo. *Dermatology* 196: 397-400, 1998.
6. Gorti S., Tone. H., **Imokawa G.**: Triangulation method for determining capillary blood flow and physical characteristics of the skin. *Applied Optics* 38: 4914-4929, 1999.
7. Tsukahara K., Takema Y., Fujimura T., Moriwaki S., Kitahara T., Imayama S., **Imokawa G.**: All-trans retinoic acid promotes the repair of tortuosity of elastic fibers in rat skin. *Br. J. Dermatol.* 140: 1048-1053, 1999.
8. Tsukahara K, Takema Y, Yorimoto Y, Moriwaki S, Fujimura T, **Imokawa G.**: Effects of single shot UVB irradiation on skin elasticity and three-dimensional microstructure of elastic fibers in rat ski. *Photomedicine and photobiology* 21, 77-79, 1999
9. Tsukahara K., Takema Y., Kazama H., Yorimoto Y., Fujimura T., Moriwaki S., Kitahara T., Kawai M., **Imokawa G.**: A photographic scale for the assessment of human facial wrinkles. *J. Cosmet. Sci.* 51: 127-139, 2000
10. Tsukahara K., Takema Y., Fujimura T., Moriwaki S., Kitahara T., **Imokawa G.**: Determination of age-related changes in the morphological structure(sagging) of the human cheek using a photonumeric scale and three-dimensional surface parameters. *Int. J. Cosmet. Sci.* 22(4): 247-258, 2000
11. Tsukahara K., Takema Y., Moriwaki S., Fujimura T., Kitahara T., **Imokawa G.**: Age-related alterations in the echogenicity in Japanese skin. *Dermatology* 200(4): 303-307, 2000

12. Fujimura T, Moriwaki S, Takema Y, Imokawa G. Epidermal change can alter mechanical properties of hairless mouse skin topically treated with 1alpha, 25-dihydroxyvitamin D(3). *J Dermatol Sci.* 24: 105-111, 2000.
13. Fujimura T, Takema Y, Moriwaki S, Tsukahara K, Imokawa G, Yamada A, Imayama S. Analytical method to examine the effects of carbon dioxide lasers on skin: A study using wrinkles induced in hairless mice. *Lasers Surg Med.* 28(4): 348-54., 2001
14. Tsukahara K., Takema Y., Moriwaki S, Fujimura T, Imayama S., Imokawa G.: Carbon Dioxide Laser Treatment Promotes Repair of the Three-Dimensional Network of Elastic Fibers in Rat Skin. *Br J Dermatol* 144(3): 452-458, 2001
15. Tsukahara K, Takema Y, Moriwaki S, Tsuji N, Suzuki Y, Fujimura T, Imokawa G. Selective inhibition of skin fibroblast elastase elicits a dose- dependent prevention of UVB-induced wrinkle formation. *J Invest Dermatol* 117(3) 671-677, 2001
16. Tsuji N, Moriwaki S, Suzuki Y, Takema Y, Imokawa G.: The role of elastases secreted by fibroblasts in wrinkle formation: Implication through selective inhibition of elastase activity. *Photochem Photobiol*74(2):283-290, 2001
17. Tsukahara K, Takema Y, Moriwaki S, Fujimura T, Imokawa G: Dermal fluid translocation is an important determinant of the diurnal variation in human skin thickness. *Br J Dermatol* 145(4):590-596, 2001
18. Tsukahara K, Takema Y, Moriwaki S, Fujimura T, Imokawa G.: Diurnal variation affects age-related profile in skin thickness. *J Cosmet Sci* 52, 392-397, 2001
19. Sogabe Y, Akimoto S, Abe M, Ishikawa O, Takagi Y, Imokawa G. Functions of the stratum corneum in systemic sclerosis as distinct from hypertrophic scar and keloid functions. *J Dermatol Sci.* 2002 May;29(1):49-53.
20. Akazaki S, Nakagawa H, Kazama H, Osanai O, Kawai M, Takema Y, Imokawa G: Age-related changes in skin wrinkles assessed by a novel three-dimensional morphometric analysis. *Br J Dermatol* 147: 689-695, 2002
21. Tsukahara K, Nakagawa H, Moriwaki S, Shingo K, Ohuchi A, Takema Y, Imokawa G: Ovariectomy is sufficient to accelerate spontaneous skin ageing and to stimulate ultraviolet irradiation-induced photoageing of murin skin. *Br J Dermatol.* 151(5):984-994, 2004
22. Tsukahara K, Nakagawa H, Moriwaki S, Takema Y, Fujimura T, Imokawa G: Inhibition of ultraviolet-B-induced wrinkle formation by an elastase-inhibiting herbal extract: Implication for the mechanism underlying elastase-associated wrinkles. *International J Dermatol*, 45: 460-468, 2004
23. Fujimura T, Moriwaki S, Imokawa G, Takema Y: Crucial role of fibroblast integrins alpha2 and beta1 in maintaining the structural and mechanical properties of the skin.

J Dermatol Sci 45(1): 45-53, 2007

24. Kaoru Suganuma, Hiroaki Nakajima, Mamitaro Otsuki, **Genji Imokawa**: Astaxanthin attenuates the UVA-induced up-regulation of matrix-metalloproteinase-1 and skin fibroblast elastase in human dermal fibroblasts. J Dermatol Sci 2010; 58(2): 136-142
25. Naoko Morisaki, Shigeru Moriwaki, Yoriko Sugiyama-Nakagiri, Keiichi Haketa, Yoshinori Takema, **Genji Imokawa**: Nephilysin is identical to skin fibroblast elastase –its role in skin ageing and UV responses. J Biol Chem 2010; 285(51):39819-39827.
26. Hiroaki Nakajima, Yoshiyuki Ezaki, Tomoyashu Nagai, Ryosuke Yoshioka, **Genji Imokawa**: Epithelial-mesenchymal interaction during UVB-induced up-regulation of neutral endopeptidase. Biochem J. 2012 443(1): 297-305.
27. Hiroaki Nakajima, Ryosuke Yoshioka, Yoshiyuki Ezaki, Tomoyashu Nagai, Genji Imokawa: Paracrine cytokine interaction between UVB-exposed epidermal keratinocytes and dermal fibroblasts in stimulating expression of skin fibroblast-derived elastase. Cytokine. 2012; 59(1):166-175 (**Restracted**)
28. Suganuma K, Shiobara M, Sato Y, Nakanuma C, Maekawa T, Ohtsuki M, Yazawa K, **Imokawa G**: Anti-aging and functional improvement effects for the skin by functional foods intakes: clinical effects on skin by oral ingestion of preparations containing Astaxanthin and Vitamins C and E. Jichi Medical University Journal 2012, 35, 25-33
29. Shuko Terazawa, Hiroaki Nakajima, Keisuke Tobita, **Genji Imokawa**: The decreased secretion of hyaluronan by older human fibroblasts under physiological conditions is mainly associated with the down-regulated expression of hyaluronan synthases but not with the expression levels of hyaluronidases. Cytotechnology. 2015 Aug;67(4):609-20. doi: 10.1007/s10616-014-9707-2.
30. Hiroaki Nakajima, Shuko Terazawa, Takao Niwano, Yorihiro Yamamoto, **Genji Imokawa**: The Inhibitory Effects of Anti-Oxidants on Ultraviolet-Induced Up-Regulation of the Wrinkling-Inducing Enzyme Neutral Endopeptidase in Human Fibroblasts. PLoS One. DOI:10.1371/journal.pone.0161580 September 20, 2016
31. Shuko Terazawa, Masahiko Nakano, Akio Yamamoto, **Genji Imokawa**: Mycosporine-like amino acids stimulate hyaluronan secretion by up-regulating hyaluronan synthase 2 via activation of the p38/MSK1/CREB/c-Fos/AP-1 axis. J Biol Chem. 2020 May 22;295(21):7274-7288. doi: 10.1074/jbc.RA119.011139.
32. Shuko Terazawa, Mariko Takada, Yoriko Sato, Hiroaki Nakajima, **Genji Imokawa**: The attenuated secretion of hyaluronan by UVA-exposed human fibroblasts is associated with up- and down-regulation of HYBID and HAS2 expression via activated and inactivated signaling of the p38/ATF2 and JAK2/STAT3 cascades. Int. J. Mol. Sci.
